Mankomal Kaur Gandhara

Hiring Manager,

I want to thank you to reach up to this document. I really appreciate the time you took to review my portfolio. This document will just tell you more about my initiatives that I am working on to upgrade my skills.

1. I am learning various other frameworks that must be helpful for your organization like **flask, React Native**.
2. Also, I am upgrading my skills in cloud computing. I have already done **the AWS** intermediate learning. However, I am currently enhancing my skills in **google cloud computing**.

Also, I am open to learn any of the new technologies that will be required.

Thanks

Regards

Mankomal Kaur
